Legal Basis	Contents		
Article 89(2)(a) of Delegated Regulation (EU) No. 2017/565	Price List Year 2023		
and Article 11(2)(a) of Delegated Regulation (EU) No. 2017/567	Preliminary note: Deutsche Börse ("DBAG") acts as both a manufacturer and a distributor of market		
	data. DBAG distributes market data on behalf and for the accounts of Börse Berlin for its BERA, BERB and BERC segments.		
	I. Fee Model of the Market Data Dissemination Agreement		
	1. Differentiation based on Usage Types		
	Licenses are granted for the following usage types: (a) Display Information Usage; (b) Non-Display Information Usage; (c) Onward Dissemination.		
	2. Differentiation based on Customer Categories		
	Secondly, license fees depend on the applicable Customer Category licensee has chosen under the relevant usage license.		
	3. Unit of Count vs. Flat Fee		
	Thirdly, the specific fee to be paid depends either on the concrete usage (measurement via units of count) or shall be paid as a lumpsum amount. Discounts may be granted as stipulated in the relevant license agreement (Market Data Dissemination Agreement or Non-Display Agreement).		
	II. Non-Display Agreement		
	Licensees who are not interested in other usage types than the Non-Display Information Usage only need the Non-Display Agreement. With respect to the applicable fee model, the same logic applies as illustrated above with the deviation that only the usage type Non-Display Information Usage is of relevance.

Article 89(2)(e) of Delegated Regulation (EU) No. 2017/565 and Article 11(2)(e) of	Information on cost accounting methodology: year 2023		
Delegated Regulation (EU) No. 2017/567	Information on how the price was set, including the cost accounting methodologies used and information about the specific principles according to which direct and variable joint costs are allocated and fixed joint costs are apportioned	Deutsche Börse ("DBAG") acts as both a manufacturer and a distributor of market data. DBAG distributes market data on behalf and for the accounts of Börse Berlin for its BERA, BERB and BERC segments.	
		Fees for market data products are generally defined based upon costs and include a reasonable margin. The specific fee is being determined based on the scope, scale and use of the market data product for the Customer Category (as defined in the relevant license agreement) the licensee can be attributed to	
		Price changes for Börse Berlin market data are proposed by DBAG and approved by BSX.	
		Costs are determined based upon the figures evaluated in light of DBAG's financial statements which are prepared in compliance with International Financial Reporting Standards (IFRS) and the related interpretations issued by the International Financial Reporting Standards Interpretation Committee (IFRSIC), as adopted by the European Union in accordance with Regulation (EC) No. 1606/2002 of the European Parliament and of the Council on the application of international accounting standards.	
	Please provide a summary of how the price was set, including		
	1) An exhaustive list of types of costs included in setting the price, including direct and joint and common costs and examples of	Pursuant to the market data dissemination agreement between Deutsche Börse and Börse Berlin, relevant costs associated with	

BÖRSE **X** BERLIN

		commercialization of Market Data are:
		 marketing and distribution; technical processing and fix payments profit related amounts
		Further explanations are included in section 3 of the following document published by Deutsche Börse
		https://www.mds.deutsche- boerse.com/resource/blob/1334838/ ce495d1cfc2115dcb9bdf00579f23d33/ data/MiFIR-RCB-documentation.pdf
each cost type	ach cost type	Acc. to DBAG, prices for the relevant data packages are generally defined based on costs as laid out above and below, and the value of the data to various customer groups, including the content of the data packages.
		(i) share of cost solely attributable to data production,
		(ii) the cost solely attributable to data administration and dissemination, such as for example staff costs, data marketing costs, costs for the real-time market data feed but also data business overhead functions such as senior management, regulation and strategy, and
		(iii) common costs, which cannot be solely attributed to the production, administration and dissemination of market data, such as an adequate share of general management overheads, shared with other business verticals, including, but not limited to, premises and administrative staff.
	2) Allocation principles and allocation keys (%) for joint and common costs	2) As a general note - due to the nature, scale and complexity of the business - BSX do not perform any own cost accounting methodology.
		Therefore, reference is made to the information published by DBAG.
